

BOOST GEL REMOVAL

REMOVE BOOST GEL ONLY

1. Break the seal with a gentle file.
2. Using your preferred acetone based remover, either soak or tightly wrap each finger for approximately 15 minutes.
3. Gently slide off any remaining product with an orangewood stick making sure to remove in the direction of the nail growth only.

REMOVE GEL POLISH, SOAK OFF & HARD GELS

1. First you will need to remove your gel polish, soak off or hard gels by either soaking or e-filing down to **BOOST** Gel.
2. You have the option now to rebalance your **BOOST** Gel and then re apply your gel polish, soak off or hard gels.
3. Once removing your gel polish, soak off or hard gel - you will then need to:
 - a. Break the seal with a gentle file.
 - b. Using your preferred acetone based remover, either soak or tightly wrap each finger for approximately 15 minutes.
 - c. Gently slide off any remaining product with an orangewood stick making sure to remove in the direction of the nail growth only.
