

RELEAF MANICURE PROTOCOL

Client Consultation

Even with existing clients, it's best to start with a review of any potential hand or nail health issues when they book their manicure appointment. Ask if they have diabetes, psoriasis, or other conditions that may interfere with their hands or nails, including wounds like cuts, ulcers, abrasions, or other areas of broken skin. If your client has any visible hand or nail health issues, refer them to their doctor.

If your client is healthy and ready for the best manicure of their life, offer them these options:

RELEAF GOLD MANICURE

The **GOLD** Manicure uses our high-quality RELEAF products to provide a manicure experience unlike any other. Our products help the skin absorb and retain moisture, leaving them softer and smoother than ever before. Your client's hands will look and feel amazing after this lavish treatment for the hands!

RELEAF PLATINUM MANICURE Upgrade:

We recommend an upgrade charge of \$15 or higher.

The **PLATINUM** Manicure Upgrade adds **AU Drench™** and **CBD Elixir** to the already luxurious GOLD Manicure experience. **AU Drench™** combines Allantoin and Urea to soothe and moisturize the skin. Think of **AU Drench™** as "pure moisture" for the skin. **CBD Elixir** contains 4% CBD suspended in organic hemp seed oil and is a serious, intensive treatment for the skin.

Remember: RELEAF can also be used for your Pedicure service!

SOAK, SOOTHE, TRIM & SMOOTH

- Remove any polish from the fingernails
- Add 1 pump of **SOAK-A-LYPTUS™** into your manicure bowl, then fill with warm water.
For diabetic clients, soak no more than 3-4 min at approximately 95F/35C
RELEAF Platinum Manicure Upgrade: Add 1/2 teaspoon of AU Drench along with SOAK-A-LYPTUS™
- Submerge your client's fingers in the water and let them soak for at least 4-6 minutes, although you can let your client relax for longer if they wish.
- Remove their hands from the bowl, gently towel dry, leaving the skin damp.
RELEAF Platinum Pedicure Upgrade: Warm 1 eyedropper of CBD ELIXIR in the palms of your hands and massage into your client's fingers, hands and arms. The ELIXIR should quickly absorb into their skin in 2-3 minutes.
- Trim and file the free edge of their fingernails. After trimming, spray **CUTI-CAL** on to the cuticles.
- Allow the **CUTI-CAL** Treatment to soak in for 2 minutes, then carefully push back the proximal nail fold (cuticle) and remove any loose skin.

BLISS

- Use approximately 1/3 teaspoon of **DADI® SCRUB GOLD** per hand, and gently massage it onto your client's fingers, hands and arms.
- If your client wishes, wrap their fingers and hands in a warm, damp towel and allow the heat to help the **DADI® SCRUB GOLD** penetrate and relax your client's fingers, hands and arms (optional).
- Use the towel to remove the undissolved **DADI® SCRUB GOLD** and then dip into the manicure bowl to remove the rest.

RELEAF PLATINUM Manicure Upgrade: Apply 1 eyedropper of CBD ELIXIR to your client's fingers, hands and arms before providing the massage.

- Using approximately 1/2 teaspoon of **DADI® LOTION GOLD**, massage your client's fingers, hands and arms until their skin absorbs the lotion. Take your time and focus on helping your client relax.

GLAM

- Carefully cleanse the nail plates and cuticles using **Cinnatize™** Nail Surface Cleanser to provide an oil-free surface of the nail plate and increase adhesion. Apply the selected polish.

FINISHING TOUCHES

After polishing, apply **Dadi® Oil** over the nail polish and cuticles. Complete the manicure by spraying **FAMOUS FINISH™** to the fingers, hands and arms. **FAMOUS FINISH™** cools and conditions the hands and arms, creating the perfect end to the perfect manicure.

At-home hand care will help your clients keep their manicure looking fabulous and their hands soft and smooth. **Dadi® Oil**, **DADI® LOTION GOLD**, **DADI® SCRUB GOLD** and **CBD ELIXIR** are all perfect ways to help your client reach this goal.
