

RELEAF WATERLESS PROTOCOL

Client Consultation

Even with existing clients, it's best to start with a review of any potential foot health issues when they book their pedicure appointment. Ask if they have diabetes, psoriasis, or other conditions that may interfere with their feet, including wounds like cuts, ulcers, abrasions, or other areas of broken skin. If your client has any visible foot health issues, refer them to their doctor or podiatrist.

If your client is healthy and ready for the best pedicure of their life, offer them these options:

RELEAF GOLD PEDICURE

The **GOLD** Pedicure uses our high-quality RELEAF products to provide a pedicure experience unlike any other. Our products help the skin absorb and retain moisture, leaving them softer and smoother than ever before. Your client's feet will look and feel amazing after this lavish treatment for the toes, heels, and soles!

RELEAF PLATINUM PEDICURE Upgrade:

We recommend an upgrade charge of \$8 - \$10.

The **PLATINUM** Pedicure Upgrade adds **CBD Elixir** to the already luxurious GOLD Pedicure experience. **CBD Elixir** contains 4% CBD suspended in organic hemp seed oil and is a serious, intensive treatment for the skin.

Remember: RELEAF can also be used for your Manicure service!

RELAX, SOOTHE, TRIM & SMOOTH

- Remove any polish from the toenails and sanitize the feet and toes.
- Trim and file the free edge of the toenails. After trimming, spray **CUTI-CAL** on to the toe cuticles and the heels of the feet. Spray generously on any callused areas.

RELEASE PLATINUM Pedicure Upgrade: Apply 1-2 eyedroppers of CBD ELIXIR to your client's feet and legs before providing the massage.

- Allow the **CUTI-CAL** Treatment to soak in for approximately 2 minutes, then carefully push back the proximal nail fold (cuticle) and remove any loose skin. Spray liberally with a water bottle to remove **CUTI-CAL**.
- Use the **LOOSIN' IT FOOT FILE™** to gently smooth down the calluses and dry skin. You can reapply **CUTI-CAL** to any areas needing extra attention before finishing with the **LOOSIN' IT FOOT FILE™**. Spray liberally with a water bottle to remove **CUTI-CAL**.

BLISS

- Use approximately 2/3 teaspoon of **DADI'® SCRUB GOLD** per foot, and gently massage it onto your client's feet and legs. Pay extra attention to the heel and sole of the feet.
- Wrap their feet and legs in a warm, damp towel and allow the heat to help the **DADI'® SCRUB GOLD** penetrate and relax your client's feet and legs.
- Use the towel to remove the undissolved **DADI'® SCRUB GOLD**.
- Using approximately 1/2 teaspoon of **DADI'® LOTION GOLD**, massage your client's feet and legs until their skin absorbs the lotion. Take your time and focus on helping your client relax.

RELEASE PLATINUM Pedicure Upgrade: Apply 1-2 eyedroppers of CBD ELIXIR to your client's feet and legs and massage in before applying the DADI' LOTION GOLD.

GLAM

- Carefully cleanse the nail plates and toe cuticles using **Cinnatize™** Nail Surface Cleanser to provide an oil-free surface of the nail plate and increase adhesion. Apply the selected polish.

FINISHING TOUCHES

After polishing, apply **Dadi'® Oil** over the nail polish and cuticles. Complete the pedicure by spraying **FAMOUS FINISH™** to the toes and tops of the feet. **FAMOUS FINISH™** cools and conditions the feet, creating the perfect end to the perfect pedicure. Use a towelette to remove any excess moisture or oils from the bottom of the foot to prevent slipping.

At-home foot care will help your clients keep their pedicure looking fabulous and their feet soft and smooth. **Dadi'® Oil**, **DADI'® LOTION GOLD**, **DADI'® SCRUB GOLD** and **CBD ELIXIR** are all perfect ways to help your client reach this goal.
