

# RELEASE MANICURE PROTOCOL

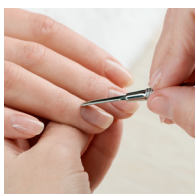

1. Remove polish from nails.

2. Add 1-2 pumps of **SOAK-A-LYPTUS** in a hand bath and fill with warm water. Add 1 teaspoon of **AU DRENCH** to the water (eliminate if doing Gold).

3. Let them soak for at least 6-10 minutes, longer if needed. For diabetic clients, soak no more than 3-4 min at approximately 95F/35C.

4. Remove from the bath, towel dry, leaving skin damp. Warm 2 eyedroppers of **CBD ELIXIR** in hands and massage into client's hands. The **CBD ELIXIR** will absorb into the skin in 2-3 minutes (eliminate if doing Gold).

5. Trim and file the free edge of the nails.

6. Spray **CUTI-CAL** onto the cuticles. Allow **CUTI-CAL** to soak in for 2 minutes, then push back the cuticle and remove any loose skin.

7. Using 2/3 teaspoon of **DADI' SCRUB GOLD** per hand and gently massage into your clients' fingers, hands, and arms.

8. For extra moisture, wrap their hands and arms in a warm towel to help the **DADI' SCRUB GOLD** to penetrate the skin. Remove what is left on the skin with our towel and dip into water to remove the rest.

9. Apply 1-2 eyedroppers of **CBD ELIXIR** to your client's fingers and hands before providing the massage (eliminate if doing Gold). Start with approximately 1/2 teaspoon of **DADI' LOTION GOLD**, massage your client's hands and arms until their skin absorbs the lotion.

10. Cleanse the nail plates and apply polish.

11. Apply **DADI' OIL** onto the cuticles and Spray **FAMOUS RELEASE FINISH™** - this will seal in all moisture and further condition the skin - They are ready to go!

At-home hand care will help your clients keep their manicure looking fabulous and their hands soft and smooth. **Dadi' Oil**, **DADI' LOTION GOLD**, **DADI' SCRUB GOLD** and **CBD ELIXIR** are all perfect ways to help your client reach this goal.
